2026-27 EXCEPTION VALUE RATIO

Property Class	Property Type	Ratio
0	Unbuildable	39.4
1	Residential	39.4
2	Commercial	45.0
3	Industrial	45.0
303	State Industrial	100.0
308	Industrial Mach/Equip	100.0
4	Tract	36.8
5	Farm	36.8
6	Forest	36.8
7	Multi-Family	47.5
71	Low Income Housing	47.5
8	Resort	54.8

The above ratios are applied to the real market value of new property or improvements to property per ORS. 308.153. These ratios are calculated and applied each year based on the primary property class for each property. The ratio is only applied to that portion of value that is new. This adjusted new value is then added to the Maximum Assessed value of any existing property.

ORS. 308.153 was part of Ballot Measure 50 that was implemented in 1997. The statute states in part... "If new property is added to the assessment roll or improvements are made to property as of January 1 of the assessment year....the value of the new property or new improvements determined under this section shall be multiplied by the ratio."
